Tips on Selecting the Best Training That Meets Your Team's Learning Objectives:

1. Identify Your Team's Learning Objectives:

- What does your team need to learn?
- Does your team have any knowledge gaps?

2. Assess Your Team's Skill Level:

- Assess individual training plans and organizational priorities
- What's the skill level of the team? Are there junior and senior team members?

3. Review the Course Outline:

- Examine the outline and confirm the content works for your team
- Review the course outline with team leaders and management

4. Customized Training – When You Require a Custom Approach:

- Incorporate your own learning objectives and files
- Consultation to advise on content and session length
- A customized outline will be provided for your review
